</tr>
</tbody>
</table>

Prospective students will be required to attend an interview prior to being enrolled on the programme and will be required to demonstrate sufficient fluency in reading and writing English.

Course Overview

The Access to Higher Education (HE) Diploma is a qualification which prepares students for study at degree level. If you would like to go to university but left school without the qualifications you need, then an Access to HE course could be for you. The course provides foundation knowledge and an exemplary experience of laboratory practical work in addition to equipping students with the skills necessary to succeed at university.
**Course Content**

You will be expected to carry out a substantial amount of self-study in your own time. There is a mixture of study methods employed on both programmes e.g. lectures, practical experiments, group workshops and discussions to stimulate your interest and enhance your learning. The curriculum content comprises of:

- Biology/Health: to include the structure and function of human circulation and gas exchange, nutrition and digestion, human urinary system, coordination, cell transport; endocrine system, musculo-skeletal system, human sex and reproduction.
- Psychology: you will explore the theoretical basis of human behaviour through study of child development, health psychology perspectives, social interaction and psychological disorders.
- Study Skills (which underpin all of the subject units): academic writing skills, presentations, and exam techniques.

**How will I be assessed?**

You will be continually assessed on this programme through a wide variety of course work e.g. an essay, a report, a presentation and/or group work. Although there is no formal examination end of module tests are used to collect some evidence needed for assessment.

**What equipment will I need?**

Stationery equipment will be required. Access to a computer/laptop, connection to the internet and printing facilities are highly recommended.

**Where will I study?**

SciTech Centre  
Falcon Street  
Barnsley  
S70 2EY

**What can I do next?**

On completion of this programme, you could apply for training in a career such as paramedical professions such as, laboratory technician, physiotherapy, radiography, paramedical science, operating department technician, cardiology or audiology. Students wishing to apply to University are advised to contact the relevant admissions tutor to check that the course is acceptable as an entry qualification for the degree programme they wish to enter.

**How much does the course cost?**

Course fees: £3,350.

**19+ Students**
