April Showers... Read for hours

For many, rainy days are no fun – but it doesn't have to be that way. There is nothing nicer than curling up under a blanket with a good book, audio book or film while the rain beats against your windows!

The Learning Curve have created another [digital display](#) and compiled some fantastic lists of [longer reads](#), [rainy day movies](#) and longer listening [audio books](#) to help you while away those hours.

All the titles listed are available to borrow from the Library through our Click and Collect service. Visit our interactive [Reading Tree](#) for direct links to the books on the catalogue and to reserve your copy today!

Audio

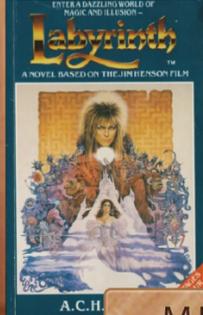

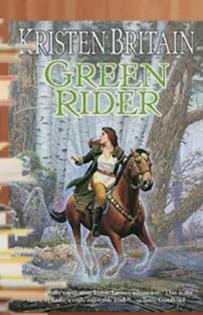

Books

The LRC has ventured into the realm of audio books and purchased a number of titles that are now available for you to borrow with your Library account. At the moment, the easiest way to access them is through your Athens account. Simply log on and select 'Audio books' which is listed under your resources. This will take you directly to our Ebsco audio book page, where you can search through the categories for the titles we have on offer. If you see one

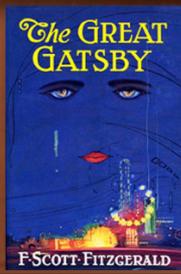

you fancy, you can borrow it by selecting 'Borrow' and it will automatically be downloaded for your selected time period. To access your loan, simply download and log in to the free Ebsco Audio Book App and enjoy!

We have also gathered a few links together to for some great podcasts that we found over Lockdown. You can find them on our [Reading for Pleasure](#) page.

Staff Suggestions

Are you still struggling to decide what to read? Never fear, our [staff suggestions bookshelf](#) is continuing to expand with some great reviews that are bound to spark your interest. We hope we've already encouraged you to pick up a copy of Green

Rider or The Great Gatsby, but if not, perhaps our latest suggestion from Karen Owen, one of our library assistants, will be the one for you.

Karen is a busy mum of four, who not surprisingly, doesn't get much time to read but when she does her 'go to' book is Labyrinth, a novel based on Jim Henson's 1986 film of the same name. Read her [review](#) to find out why!
