Different learning Environments

in Hair and Beauty

Classrooms

Work placements

Recreational areas

Your theory lessons in Hair and Beauty will be in IT classrooms with tutor-led teaching or working through unit assignments on the computers.

Lessons

Theory lessons

You will have two to three theory lessons each week. In these theory lessons, you will look at improving your product knowledge, techniques, selling skills and health and safety of working in a salon.

In theory lessons you will work through booklets with tutor-led teaching and self-study. Science will form a major part of these lessons as you will be working with chemicals when in the salon. These lessons will develop your skills preparing you for a career in Hair and Beauty.

Practical lessons

Hair and Beauty offers plenty of opportunities to get stuck in with practical work. What you will be doing each week depends on the course you have selected. For example, if you are studying Hair and Media Make-up Artistry, you will have the chance to practise

your make-up skills on volunteer models, and even assist with make-up for College theatre productions. Those who are studying Hairdressing, Barbering or Nail Services will have the opportunity practise on paying members of the public.

Do I need to do English and Maths?

If you have a grade 4 or above in GCSE English and Maths, you will not study them at College.

If you have a GCSE in English and Maths below a grade 4/D, you will need to attend two GCSE Maths and/or two GCSE English lessons each week. These will depend on your timetable. If you are working below this level, you can do Functional Skills instead.

If you have an Education, Health and Care Plan (EHCP) it may be possible to be exempt from English and Maths. You can speak to your tutor or ALS department about this.
