

Media and Photography

Digital Photography Level 3 Full-time

In Brief

Start Date / Duration

This course starts in September and will be completed in two years.

Entry Requirements

- Five GCSEs at grade 4 or above including GCSE English and maths
- A genuine enthusiasm for multimedia production and photography

You will achieve

UAL Level 3
Diploma/Extended Diploma in
Photography, Creative Media
Production and Technology

Course Overview

If you see yourself in the studio, setting up lighting for product shoots or out in the field taking documentary style shots, this study programme will help you develop your artistic and technical skills to succeed in a career in photography.

You'll gain knowledge of photographic styles, how to manage a client brief and editing using the latest Adobe suite all in preparation for working in the industry.

This course will suit you if you are creative and artistic but have a technical understanding. You'll use the latest SLR cameras to explore your creativity building up a portfolio of work.

Course Content

You'll develop skills in creative and technical aspects; understanding the history of photography whilst developing a critical perspective.

The course content includes skills development and reflection alongside research and implementation of production ideas in a wide range of media including print and interactive. You will work on a range of projects including photojournalism, portraits, product and fashion. You will have access to a high specification photographic studio within the College, but you will also have to travel to outside locations to fulfill your briefs.

As part of your course you will study the following units:

- Theory and history of photography
- Digital image capture, techniques and editing

- Studio and location photography
- Working with a professional client brief
- Developing a photography portfolio

How will I be assessed?

Assessment is continuous throughout the year based on coursework with the qualification outcome being dependent on learners completing a final major project that is assessed as Pass, Merit or Distinction.

What Equipment Will I Need?

Although resources such as cameras are available for teaching and assessment purposes, the expectation is that students on the course would have sufficient interest to warrant owning their own photographic equipment. Advice is available dependent upon your area of specialism. The basic requirements for those choosing to utilise college equipment would be a USB device suitable for backing up photographic images and other work.

Where will I study?

Old Mill Lane campus
Church Street
Barnsley
S70 2AX

What can I do next?

This course can form the foundations for future study and work in this industry. After successful completion of this course you could progress onto a Higher Education programme in the Creative Industries.

How much does the course cost?
